Professional Summary

Motivated pharmacist and research assistant specializing in nanotechnology. Experienced in laboratory techniques, biosensor development, and academic instruction. Currently completing an MSc in Pharmaceutical Sciences.

Experience

Researcher – University of Naples Federico II, Italy (Sep 2024 – Dec 2024)

- Conducted research on paper-based electrochemical biosensors
- Performed CV and EIS analysis
- Optimized biosensors for biomarkers and contaminants

Research & Teaching Assistant – An-Najah National University (Aug 2022 – Present)

- Supervised laboratory sessions
- Supported pharmaceutical, biochemistry, and cosmetics laboratories teaching
- Evaluated student performance

Medical Representative – Sawa Care (Dec 2020 – Aug 2021)

- Promoted pharmaceutical products
- Built relationships with healthcare professionals

Education

MSc Pharmaceutical Sciences – An-Najah National University (Ongoing)

BSc Pharmacy – An-Najah National University (2021)

Skills

- Biosensor development and optimization
- Electrochemical techniques (CV, EIS)

- Experimental design and method optimization
- Data analysis and interpretation
